WAIRE Mitigation Program
Incentive Funding Window Opens Tomorrow

The South Coast Air Quality Management District (SCAQMD) will begin accepting applications for its WAIRE Mitigation Program tomorrow, October 13, 2026 at noon. Applications will be accepted through December 15, 2026.

For the first year of the program, approximately $73.1 million is available to support the purchase of new zero-emission Class 4-8 trucks, off-road yard trucks, and associated zero-emission charging and fueling infrastructure.

Eligible applicants include warehouse operators, fleet operators, and zero emission truck charging and fueling infrastructure providers serving warehouses.

Applications are reviewed in the order received on a first-come, first-served basis, and funds are awarded to applicants that meet all requirements of the program.

Applicants who previously drafted and saved an application in the system will need to return to the GMS and click the “Submit” button to formally submit their application for review.

For eligibility details and access to the grant funding portal, visit the **WAIRE Mitigation Program Webpage.**

For any questions, contact SCAQMD staff at **waire-incentives@aqmd.gov**.
