04/30/26

Second Public Webinar on WAIRE Mitigation Program

South Coast AQMD Rule 2305 - Warehouse Actions and Investments to Reduce Emissions (WAIRE) applies to approximately 4,000 large warehouses and provides multiple options to address emissions associated with warehouses, including a mitigation fee option.

SCAQMQ staff is developing the **WAIRE Mitigation Program** which will provide incentive funding from collected mitigation fees for eligible NOx and/or Diesel PM emission reduction projects at warehouses and surrounding communities.

This virtual webinar is being held to discuss responses to stakeholder comments received since the last public webinar held on 2/27/26. **Presentation material will be available on the WAIRE Mitigation Program webpage 72 hours prior to the webinar.**

Second Public Webinar on WAIRE Mitigation Program
Wednesday, May 13
1:00 pm
