

04/14/26

Dear Members,

As we continue through 2026, your advocacy team remains fully engaged at the State Capitol, working every day to protect your business, reduce regulatory burdens, and ensure the trucking industry has a strong and effective voice in California policymaking.

Here is a snapshot of what we have accomplished so far:

**Key Wins and Progress**

- Stopped harmful legislation that would have expanded CARB's regulatory authority with no oversight and increased costs for trucking businesses
- Leading opposition with a statewide coalition pushing back on indirect source rule legislation that would grant CARB new authority
- Actively opposing the Governor's Sustainable Aviation Fuel tax proposal to protect transportation funding and prevent diesel fuel price increases
- Protecting commercial vehicle operators by exempting existing loading and unloading zones from local automated curb management fees and penalties
- Supporting legislation strengthening enforcement against cargo theft

We remain focused on one thing, protecting your business and ensuring your voice is heard at the Capitol.

Your membership makes this work possible. It strengthens our ability to advocate on your behalf, amplifies the voice of the trucking industry, and ensures that decision makers hear directly from the businesses that keep California's economy moving. Together, we are making an impact where it matters most.

Thank you for your continued support.

**April 2026 Legislative Summary**
