LA28 Olympics Truck Route Closure Roundtable

The LA28 Olympics could change where and when your trucks can operate in Southern California. Now is the time to help shape transportation plans that could affect your operations.

Join CTA virtually for our Fall Executive and Policy Committee Meetings on Zoom from Wednesday, October 14 to Thursday, October 15.

During the **Highway Policy Committee** meeting, the Southern California Association of Governments (SCAG) will **present on proposed truck route closures** in and around the Olympic venues in the Southern California region during the games.

Members will have an opportunity to ask questions and share how these proposals could affect their operations.

With the Olympics less than two years away, potential route restrictions and changes to freight operations could have significant consequences for delivery schedules, port access, and the Southern California supply chain.

Your participation will help transportation planners understand the trucking industry's operational needs and the challenges these proposals could create. Join the discussion and help keep freight moving during the Games.

About SCAG

SCAG leads the Games Mobility Executives (GME) Transportation Demand Management (TDM) Subcommittee and co-leads the GME Communications and Outreach Subcommittee. SCAG coordinates a regional TDM strategy to support mobility planning for the LA28 Games
