Fall 2026 Government Affairs Update

To learn more about CTA's advocacy efforts, please join the **California Trucking Association's Government Affairs** team for our **Webinar: Fall 2026 Government Affairs Update**. This webinar is an invaluable opportunity to stay up to date on the latest legislative and regulatory developments directly affecting the trucking industry in California.

CTA's Government Affairs will provide an overview of legislation that could impact the trucking industry including legislation focused on labor, environmental, tax, and safety policies.

You will learn about CTA's busy, productive year and our legislative wins:

- Defeated multiple legislative attempts to pass different statewide indirect source rule proposals
- Negotiated amendments preventing the prohibition of in-cab cameras
- Narrowed a bill to exempt assessing fees for vehicles using existing commercial loading and unloading zones
- Supported a low-use NOx exemption for vehicles subject to Clean Truck Check
- Stopped a bill that would have eliminated in-depth economic analysis required for proposed "major regulations" in California that are expected to have an economic impact exceeding $50 million
- Worked with stakeholders to preserve CTA's past negotiations preventing local jurisdictions from assessing fees on vehicles based on weight
- Limited a bill's overreach by eliminating a provision that would have required heavy-duty battery electric vehicles to include bidirectional charging capabilities for transmitting power from a vehicle's battery to the electrical grid.

Attendees will have an opportunity to ask questions about legislation and regulations.
