ALAN Immediate Non-Profit Transportation Request

The **American Logistics Aid Network (ALAN)** is requesting support from a transportation company to provide shipping of the following:

Case 9912: Ground Transportation of Two (2) Pallets - Industrial Dehumidifiers - from Douglasville, GA 30135 to Yuba City, CA 95991

The requesting non-profit, **All Hands and Hearts**, is planning to provide industrial dehumidifiers to their partners at the regional Red Cross to help support recovery operations following the Northern California flooding, but they need assistance with the ground transport.

The pallets are 48 x 48 x 72 with a total estimated weight of 900 pounds. The origin and destination sites are residential locations without docks, and this will require a liftgate for loading/offloading.

As a note, the dehumidifiers contain R-401a refrigerant, but they should not be considered hazardous for ground movement due to an exemption under the regulations. Regarding the timeframe, the non-profit is looking to move this as soon as possible.

Please contact **Nick Chiappe** if you are interested in helping facilitate transportation.
